

AryLift for Home Care

For more information, please visit <http://AryLift.101Mobility.com>

AryLift is a made in America patient lift system, safely solving the day to day mobility issues of the specialty needs and/or disabled and bed bound patients, their caregivers (CG), or healthcare professional (HCP).

AryLift enables ONE CG/HCP to bathe, transfer, transport, lift, treat and prevent bedsores, turn patients, change linens, and any other task that would require moving or repositioning the patient.

AryLifts are UL approved and FDA Registered; and are rated to lift up to 1,000 lbs.

AryLift attains the highest level of comfort, safety, confidence, and stability for both the patient and the caregiver.

AryLift is easy to get: The system, if Dr. prescribed, is Medicare approved.
