

# Pride® Lifts

*Mobility Made Easy.*

## Outlander LP Mini

The **Outlander LP Mini** is a low-profile power chair lift is the lightest lift in its class and is designed exclusively for 10" mid-wheel drive power chairs and Class II hitches. Low-profile lifts provide increased visibility while the lift is in use or in the stowed position. The design also provides a shock-absorbing "cradle effect" which protects your power chair while the vehicle is in motion. The power chair hold-down bar provides an automatic secure locking mechanism, multiple levels of adjustment and can be swung to either side of the lift when not in use. The simple hitched-based installation requires little to no modification to your vehicle or mobility device and allows for easy removal.
